## Procedure code conversion chart for durable medical equipment

The following table lists the nationally recognized procedure codes and modifiers, if applicable, that providers will be required to use when submitting prior authorizations (PAs) and claims for durable medical equipment (DME). A future *Wisconsin Medicaid and BadgerCare Update* will notify providers of the specific effective dates for Wisconsin Medicaid's implementation of the federal Health Insurance Portability and Accountability Act of 1996 (HIPAA). For other PA requirements, such as life expectancy limitations, providers should refer to the DME Index that will be published prior to HIPAA implementation.
